

PRESS RELEASE

ANTARES LCS and GLOBAL RETOOL GROUP conclude cooperation

Lebach 15.10.2021. ANTARES Life Cycle Solutions GmbH and GLOBAL RETOOL GROUP with their subsidiaries WEMA VOGTLAND Technology GmbH and SVQ GmbH will cooperate in the future to offer their customers an even better service for the availability of spare parts.

ANTARES LCS contributes to this cooperation its competences in the field of reverse engineering of mechanical components as well as in the additive manufacturing of spare parts.

The internationally oriented GLOBAL RETOOL GROUP, a leader in the fields of service, overhaul, retrofit & retooling of machine tools and manufacturing equipment, rounds off the range with its own resources for conventional spare parts production and assembly

Through this cooperation, we offer our customers better and faster spare parts availability, even for older machines, and make an important contribution to the efficient use of resources and an increased sustainability.
